

# VEDANT DANGE

FULL STACK DEVELOPER | DEVOPS ENGINEER

## OBJECTIVE

Motivated Full Stack Developer with hands-on experience in building web applications and foundational knowledge of DevOps practices. Familiar with AWS cloud services and Docker containerization, with the ability to support CI/CD workflows and scalable deployments. Seeking an entry-level role to contribute to modern application development and cloud-native engineering.

## EXPERIENCE

### HISAN LAB PVT. LTD | DEVOPS ENGINEER INTERN

Mar 2025 - Nov 2025

- Built and managed scalable AWS infrastructure using EC2, RDS, S3, IAM, VPC, and security best practices.
- Configured Application Load Balancers (ALB) to enable horizontal scaling and ensure high availability during peak traffic.
- Containerized applications using Docker with optimized multi-stage builds to improve performance and reduce image size.
- Deployed and managed applications on Kubernetes using Deployments, Services, ConfigMaps, Secrets, ReplicaSets, and Ingress controllers for reliable and scalable operations.
- Developed automated CI/CD pipelines in Jenkins, integrating code builds, testing, Docker image creation, security scanning, and automated deployments.
- Implemented Infrastructure-as-Code using Terraform to provision AWS resources (VPC, subnets, security groups, EC2, RDS, S3, Route 53) in a consistent and version-controlled manner.

### LOCATION GURU SOLUTIONS PVT. LTD |

#### FRONTEND DEVELOPER INTERN

Jan 2025 - Mar 2025

- Built reusable, responsive, and dynamic UI components using React.js to enhance modularity and user experience.
- Applied component-driven architecture, state management, and API integration to develop modern front-end features.
- Gained practical experience with Git workflows, including branching, merging, pull requests, and maintaining version-controlled repositories.

## ABOUT ME

I am Full Stack Developer with hands-on experience in modern web technologies, UI development, version control, and cloud basics. Passionate about learning, building real-world applications, and contributing to a team-driven engineering culture.

## EDUCATION

**St. Vincent Pallotti College of Engineering and Technology**  
B.tech: Artificial Intelligence | CGPA:9.11

**St. Xavier High School, Nagpur**  
12th | CBSE | Percentage: 76.2%

**SS International School, Nagpur**  
10th | CBSE | Percentage: 80.2%

- Completed formal training in React.js, covering hooks, props/state management, routing, and component lifecycle concepts.
- Completed Git training focused on collaboration workflows, repository management, and clean commit practices.
- Completed Tailwind CSS training and developed modern, responsive interfaces using utility-first styling.

## TRAINING AND CERTIFICATION | INTEL UNNATI INDUSTRIAL TRAINING -2024

May 2024 - July 2024

Conducted user research and developed user personas to inform product design and development. Designed user flows, wireframes, and prototypes for a mobile app that won several industry awards. Worked closely with the development team to ensure designs were implemented accurately and efficiently.

## SKILLS

- ❖ **LANGUAGES:** JAVASCRIPT, PYTHON, SQL
- ❖ **FRAMEWORKS & LIBRARIES:** REACT, NODE.JS
- ❖ **DATABASE & BACKEND:** MONGODB, API INTEGRATION
- ❖ **TOOLS & TECHNOLOGIES:** VS CODE, POSTMAN, LINUX, DOCKER, KUBERNETES, JENKINS
- ❖ **WEB:** HTML, CSS , TAILWIND CSS
- ❖ **CLOUD & DEVOPS:** AWS (EC2, EBS, EFS, S3, EKS ,VPC, ROUTE 53, AUTO SCALING, IAM), LINUX, GIT.
