## BRIEF SUMMARY

Completed B.Tech in Artificial Intelligence from St. Vincent Pallotti College of Engineering and Technology, Nagpur. I was employed as a DevOps Engineer Intern at Hisan Labs Pvt. Ltd., where I worked with AWS, Linux, Docker, Kubernetes, and Jenkins. My responsibilities included managing and provisioning AWS infrastructure, containerizing applications using Docker, automating CI/CD pipelines with Jenkins, and coordinating deployments using Kubernetes.

## EDUCATION

- |   |                  |
|---|------------------|
| ❖ <b>St. Vincent Pallotti College of Engineering and Technology</b> | <b>2021-2025</b> |
| ○ <i>B.tech: Artificial Intelligence / CGPA:9.11</i>                |                  |
| ❖ <b>St. Xavier High School, Nagpur</b>                             | <b>2019-2021</b> |
| ○ <i>12<sup>th</sup> / CBSE / Percentage: 76.2%</i>                 |                  |
| ❖ <b>SS International School, Nagpur</b>                            | <b>2019</b>      |
| ○ <i>10<sup>th</sup> / CBSE / Percentage: 80.2%</i>                 |                  |

## SKILLS & TOOLS

- |   |   |
|---|---|
| ❖ <b>Languages:</b> JavaScript, Python, SQL   | ❖ <b>Web:</b> HTML, CSS , Tailwind CSS  |
| ❖ <b>Frameworks &amp; Libraries:</b> React, Node.js                                     | ❖ <b>Cloud &amp; DevOps:</b> AWS (EC2, EBS, EFS, S3, EKS ,VPC, Route 53, Auto Scaling, IAM), Linux, Git |
| ❖ <b>Database &amp; Backend:</b> MongoDB, API Integration                               |   |
| ❖ <b>Tools &amp; Technologies:</b> VS Code, Postman, Linux, Docker, Kubernetes, Jenkins |   |

## EXPERIENCE

|---|------------------------------------|
| ❖ <b>Hisan Lab Pvt. Ltd   Devops Engineer Intern</b>  | <i>March, 2025 – November,2025</i> |
| <ul style="list-style-type: none"><li>Created, implemented, and managed scalable AWS cloud infrastructure, leveraging EC2, RDS, S3, IAM, and security best practices to ensure high availability and secure application environments.</li><li>Configured Application Load Balancers (ALB) to efficiently distribute traffic, enabling horizontal scaling and maintaining system stability during peak loads.</li><li>Containerized applications using Docker, wrote optimized Docker files for production-grade builds, and implemented multi-stage builds to reduce image size and improve deployment performance.</li><li>Deployed, managed, and monitored services on Kubernetes, using Deployments, Services, Config Maps, Secrets, and Replica Sets to ensure reliability, scalability, and self-healing capabilities.</li><li>Configured Ingress controllers to route external traffic into Kubernetes clusters.</li><li>Built and automated CI/CD pipelines using Jenkins, integrating code build, testing, image creation, security scanning, and automated deployment steps to minimize manual intervention.</li><li>Implemented Infrastructure-as-Code using Terraform, provisioning AWS resources such as VPC, subnets, security groups, EC2, RDS, S3, and Route 53 in a repeatable and version-controlled manner.</li></ul> |                                    |

❖ **Location Guru Solutions Pvt. Ltd | Frontend Developer Intern**

*6 January, 2025 – 6 July 2025*

- Built reusable, responsive, and dynamic UI components using React.js, improving code modularity and overall user experience.
- Gained hands-on experience with Git, including branching, merging, pull requests, and version-controlled development workflows.
- Worked with modern frontend development practices, including component-driven architecture, state management, and API integration.
- Completed training in React.js, strengthening skills in hooks, props/state management, routing, and component lifecycle.
- Completed training in Git, understanding real-world collaboration methods, repository management, and best practices for clean commit history.
- Completed training in Tailwind CSS, creating modern, responsive interfaces using utility-first styling for rapid and efficient UI development.

**TRAINING & CERTIFICATES**

❖ **Intel Unnati Industrial Training-2024**

*1 May, 2024-1 July, 2024*

Completed hands-on training in Python programming and React.js for web application development.
